

LPC CONNECT ACCEPTING DONATIONS  
FOR FOOD PANTRY & MITTEN TREE

Join in the spirit of the season. The holidays are a wonderful opportunity to celebrate and appreciate our many blessings. We hope you cherish all these moments, and we wish you and your family a happy and healthy holiday.

LPC Connect is holding a food drive for local families in need. We encourage you to bring cans of vegetables, fruits, soup, or cereal as well as other nonperishable food items, such as items for the holiday boxes, before Thanksgiving.

ITEMS NEEDED FOR HOLIDAY BOXES INCLUDE:				
• Green beans	• Cornbread	• Instant potatoes	• Biscuit mixes	• Muffin mixes
• Pumpkin	• Cream of mushroom soup	• Applesauce	• Gravy mixes	• Cake mixes
• Corn		• Evaporated milk	• Stuffing mixes	

LPC Connect is hosting the Mitten Tree Program again this year through Christmas.

We are collecting new or handmade hats, gloves, mittens and scarves for people within our community who are in need. This is an opportunity for individuals, families, groups and businesses to support a local program and help a child/children, adults and/or seniors to stay warm during the winter months. The proceeds will go to families of Black Hawk, Benton and Tama counties.

As an added bonus, LPC Connect customers who make a donation will be entered into a drawing for a LPC Connect blanket. Please contact Barb or Heidi at 319-342-3369, or visit us at [www.facebook.com/lpctel](http://www.facebook.com/lpctel) for details.

Fiber-fast Fusion high-speed Internet is now available throughout the entire LPC Connect service area. Here’s what one satisfied customer had to say about their new Fusion Internet service:

I am writing this with regard to the recent Internet service you installed for me in the country. **‘WOW’ is not a big enough word to describe it.** I have never been happier. The long wait to receive high-speed Internet in the country was well worth the wait. Many thanks to all who made it possible.

OCTOBER IS NATIONAL CYBER SECURITY AWARENESS MONTH

Protect Your Digital Life with SecureIT Plus

KEEP A CLEAN MACHINE:

- **Keep security software current:** Having the latest security software, Web browser and operating system are the best defense against viruses, malware and other online threats.
- **Automate software updates:** Many software programs will automatically connect and update to defend against known risks. Turn on automatic updates if that's an available option.
- **Protect all devices that connect to the Internet:** Along with computers, smartphones and tablets also need protection from viruses and malware.

CONNECT WITH CARE:

- **When in doubt, throw it out:** Links in emails, tweets, posts and online advertising are often the way criminals compromise your computer. If it looks suspicious, even if you know the source, it's best to delete or mark it as junk.
- **Get savvy about Wi-Fi hotspots:** limit the type of business you conduct, and adjust the security settings on your device to limit who can access your machine.

IF YOU THINK YOU'RE INFECTED:

- **Act quickly:** if you are notified, become aware or suspect your device is infected, take immediate steps to remove malware.

Please remember that VoIP and wireless services can fail to perform as needed during power outages.
