# AMAZON ECHO VOICE ACTIVATION USER GUIDE

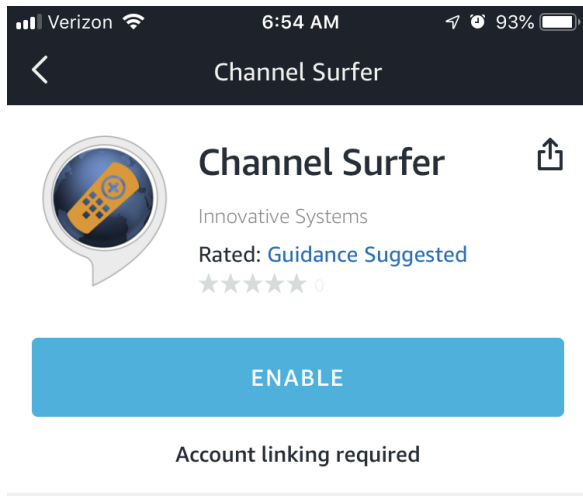

**Use Voice Activation with Alexa and the Amazon Echo to request a channel change, search for programming, and more.**

## Load the Channel Surfer into Your Skills of the Amazon Alexa App.

Click on the Channel Surfer Skill and then click Enable. Here you will link your Amazon Alexa account with the Channel Surfer account.

On your TV, click Menu and arrow down to Settings. Arrow right to Apps and then over to Device Code and press OK. Copy the Registration Code into the Amazon Alexa App and Click Submit.

Press Menu on your remote control. Go to the Settings | Apps | Device Code menu and press OK.

Enter the Device Registration Code shown on your TV.
