GOOGLE HOME VOICE ACTIVATION USER GUIDE

Use Voice Activation with Google Home to request a channel change, search for programming, and more.

STEP 1: Ask the Google Assistant to “Talk to Channel Surfer”. Google Assistant will inform you that you need to link to the Channel Surfer application through the Google Home app.

STEP 2: Click on the “Link to Channel Surfer” in your Google Home App. Here you will link your Google Home account with the Channel Surfer account.

STEP 3: On your TV, click Menu and arrow down to Settings. Arrow right to Apps and then over to Device Code and press OK. Copy the Registration Code into the Google Home App and Click Submit.

Press Menu on your remote control. Go to the Settings | Apps | Device Code menu and press OK.

Enter the Device Registration Code shown on your TV.

 A simple form with a text input field labeled "Registration Code" and a "Submit" button below it.
